

I want to express my concern over the potential ruling concerning LPFM broadcast service. My favorite radio station is listener supported K-LOVE broadcast in my local area over 106.7 FM. I want to make several points concerning the need of K-LOVE in my local area.

1. On a personal note, KLOVE is my favorite radio station. Not only is it extremely uplifting and positive radio, but also provides local announcements concerning events in my area.

2. KLOVE provides a radio station that my entire family and community can listen to without worrying about the language or innuendos so typical on much of public radio. It provides positive news and great contemporary Christian music for the commute to work and back.

3. There are not many public contemporary Christian radio stations on the air. And even fewer are listener supported. KLOVE does a wonderful job of serving the general public interest and it would be a tremendous shame if you made a ruling that prohibited or inhibited their ability to broadcast nation-wide. I think it's wonderful hearing fellow Christians from every state in the union calling in to say what a blessing this station is.

Regards, Gerald Brendle
